Experience

WEB DESIGNER / DEVELOPER – CMC MARKETS

Mar 2014 – Nov 2017

- Create responsive websites, emails, landing pages and online newsletters from PSDs/wireframing tools and written briefs using UX/UI practices (web, tablets and mobile devices)
- Working closely with marketing in all CMC offices to work on rudimentary updates received via webrequests for creating new artefacts where needed
- Develop well-formed CSS compatible with the most used web browsers and native mobile browsers
- To work with the website content editors (CMS users) to ensure website pages are consistently well formed (layout, copy structure etc.) and achieving the desired results
- Maintaining and developing custom pages and widgets in the CMS
- Working on a number of varied web development projects from making pixel perfect sites that meet the design requirements to integrating CSS code with a CMS.

FRONT-END DEVELOPER/GRAPHIC DESIGNER – 4C GROUP (FORMERLY EMAP)

Apr 2011 – Feb 2014

- Web Design and Development, Infographics, Email designs, Social Media Graphics, Print and Digital Materials for company brands **BRAD Insight, Infrastructure Journal, DeHavilland, Glenigan, Groundsure, Planet Retail, WGSN**

FRONT-END DEVELOPER/ GRAPHIC DESIGNER – INFORMA TELECOMS AND MEDIA

Jun 2010 – Feb 2011

- Web Design, Development, Web Editing and Marketing materials for global conferences
